**Subject:** Replacement Maintenance Invoice Reports for Eby-Brown (613083) for 6/2/16 and 6/8/16

Arthi,

There was an issue with the invoice reports for Eby-Brown for invoice dates 06/02/2016 and 06/08/2016. The reports had all zeros in the TOTAL\_CHARGES column. That has been corrected. I tried to run in AQT but the files failed to load into the TMW software on the customer end. Is there a way to recreate the reports for the customer through the system? It is not a crisis; next week would be fine. The CUSTOMERID in production is 5472 and the template is 1128. Please find attached the initial files and my AQT versions.

They look the same in Excel but they are formatted slightly differently when opened in Notepad. Any suggestions or direction is appreciated. Please feel free to contact me with any questions and/or comments.

Thanks and regards,

**Bob**
