Subject: RE: Miscellaneous / Do not bill

Hello Everyone,

I checked the EDI status in production today and unlike the past couple of days there were a lot of invoices generated today and none of them failed.

Tomorrow is going to be a big day for us as weekly billing would be executed, I kept quiet and dint want to jump the gun until it completed successfully.

But, looking at today's result I think each of you have done a fine job. Keep your fingers crossed for tomorrow 😊

Thanks and regards,
Arthi

Sam,

Thanks for your support and insight in completing this task, I owe it our Offshore team (Suresh/Arpit) who made this possible by working extended hours.

Thanks

Rajkumar

I want to extend a thank-you to all of you for the extra effort that you have put into moving this monstrosity closer to the finish line.

EDI-CBOS: (Signed Off!)

We have to get through the deploy process with the EDI-CBOS stuff as seamlessly as possible. Bob and Raj please coordinate and double check everything possible.

Raj, thanks for your diligence in demonstrating that the EDI-CBOS java process was functioning correctly and building the confidence in JoAnn to compel sign-off. I owe you one....

Transco Maint is next up... Sreeni now has a better understanding of the DO Not Bill detail issue at hand. Sathish, Vasanth, please work with Sreeni to get the adjustments made to ensure the data (RO#, JOid, WO....etc) that is available on the do not bill details are in fact written to Flex for update to bill history and

forwarding to CBOS and then on to EDI_Maint.... This enhancement must be treated as a priority assignment. Please work with Sreeni, he is working the details out as I write this memo...

If anyone has any issues or questions please feel free to contact me x6642 or stop by...please limit the email unless absolutely necessary...

Sam

Guys,

Attached is the completed test plan for changes made for ITG 260638. All scenarios passed – you may deploy to production.

Thanks!

JoAnn Solomon

Thanks Raj, Suresh, Arpit & Arthi for all your endless support, as Sam mentioned now we need to get through the deploy process seamlessly.

Team, Please ensure we have smooth deployment and monitor the data for couple of weeks.

Zubiar & Sukanth, Thank you very much for performing complete regression testing during weekend.

Thanks and Regards,
Bala Murali Krishna (Bala)
