Arthi,

I have found Arpit to be very knowledgeable with the complex issues of the EDICBOS process. His mastery of Java and SQL has helped move the EDI function forward in spite of many interruptions and specification changes. He seems to have very good working relationship with you and he has been quick to respond to changes. I am aware of many occasions where he has put in extra time and effort to make sure we met tight schedules with quality software. I appreciate his diligence and hard work. It is a pleasure and a benefit to have him on our team. Please feel free to contact me with any questions and/or comments.

Thanks and regards,

Robert Horton
