Hi Sreeni,

We have completed the QA testing ,everything is working fine. PFA contains the updated ITP for this enhancement. As discussed over call we were not able to test the PKZIP flow in support because of some license issue, if possible please look into it. But in QA it is working properly

Regarding the web changes, the QA deployment is over and all changes are deployed successfully, you can go and check to make sure everything is well and good. Below is the screenshot from QA for you reference-

**EDI Customization QA** You are logged in as Suresh Chidhambaranathan [Help](#) [LogOut](#)

**PENSKE** [Home](#) [Customer Setup](#) [Customer Search](#) [Invoice Inquiry](#) [Admin](#)

**Importance:** High

Hi Suresh,

QA Refresh has been completed now.

I have executed the DB scripts in QAGH system as per the delivery notes. So you can deploy changes into QA and complete the testing.

Complete the IT Test plan with all results, so I will coordinate with users and get the approval.

I have one question about the newly added column in EDI\_CUSTOMER\_CONTROL. See details below

- Column name showing as 'ZIP\_FILES'
- I think 'ZIP\_FILE' make sense for request
- For changing column name as suggested, do you need any code changes?
- Do we need to populate the data in new column to existing records?

**Note:** If you have any questions or need additional details - Call me at 610 507 6533 once you are in office

Thank you Suresh for providing the screen details.

Can you please check the 'Zip File' label in EDICBOS screen and do the required adjustment to reflect as per the request.

Here I am attaching the details about the 'Zip File' for your reference.

I am waiting for QA Refresh and I will do the DB changes as per the delivery notes.

Please complete the required screen label changes and update the test plan for user testing.

If you have any questions or need additional details call me at 610 507 6533.

Thanks & Regards,

Hi Sreeni,

PFA of Test Plan and Delivery release notes of this task. Please can you review it?

We have merged the Code from DEVGH branch to QA for WEB and BATCH.

Once QA refresh done. Please let us know. We will deploy both (WEB and BATCH) in QA for your testing.

**Note:**

We are not able to test the PKZIP flow in SUPPORT. The procedure is always returning error in SUPPORT box. Any have, that flow will not impact this task changes. We will keep those test cases result as blank in the Test Plan as of now. Tomorrow we will discuss with AS400 team to solve the PKZIPC procedure and will cover those test scenario in SUPPORT and will send updated one.

If you have any query, let us know.

Thank you Suresh for providing additional details. I have reviewed the process for test case (4) and agreeing with your "Zip file drop down value should be **No** and it is disabled." Verification step.

I have informed and received an approval from Sathish to complete the project as per the scheduled plan.

I am including Sathish to the email distribution and please let me know if you need any additional details.

Thanks & Regards,

Hi Sree,

Today discussion,

Regarding Testcase (4) You will check in audit log table and confirm tomorrow.

Regarding RESEND functionality implementation changes for unzip scenario, we need extra efforts for code changes and testing. As you can't change the delivery date from 15<sup>th</sup> to 17<sup>th</sup> Aug, There is possible to come week end for completing this task and push to QA on dated 15<sup>th</sup> Feb.

In this case As you told, Please can you get approval from Sathish to work on this weekend for offshore team?

Thanks

**Suresh C**

Thanks Sreeni for your review comments.

For the test case (4), if the template type is other than IMG and encrypt type is NONE, we are not zipping the NON PDF file type. We are sending the invoice file to customer without zipping. We thought logically this zip file option should be NO and it is disabled. We will discuss in today call.

Thank you Arpit and Suresh for providing status update and test plan. Can you please check the following points and include in IT Test plan. If you have any questions or need additional details please let me know.

- Test Environment section –application/program showing as 'EDICBSHDSC'?
- EDI Web test cases – Zip file should be 'yes' since we have selected **non** IMG files. Unzip/Unencrypt functionality is for IMG File (PDF/TIFF)

4.	User select below value in customer detail page- Template type other than 'IMG', Encrypt type as 'NONE', File Exchange type as 'EMAIL'.	Zip file drop down value should be <b>No</b> and it is disabled.

Hi All,

As per the plan and discussion with Arthi , development will be completing by today.  
Middle of the Next week you will be completing Unit testing, test plan and delivering the task.  
Following week we will be deploying changes in to QA for user testing.  
So I would like to have discussion with team (Arthi, Arpti and Tiwari) today morning about the current status and delivery plan.

Thanks & Regards,
